

# Call to Action

## Fund a study of a program that addresses immediate challenges for vulnerable adults

WRAPS Resources is a pilot program to address short-term challenges to health and safety experienced by vulnerable adults.

The program provides services not otherwise available to persons served by county Adult Protective Services in the northwest, southeast and metro regions of Minnesota. It's offered through a partnership between counties and Minnesota Area Agencies on Aging.

### Promising preliminary results

WRAPS Resources is demonstrating impressive results. Services provided have:

- Prevented housing evictions by paying back rent
- Assisted clients in managing their money to maintain waived services
- Facilitated deep cleaning and essential minor home repairs

The program expends an average of \$1,250 per person assisted. These relatively inexpensive services help to stabilize recipients' lives and reduce the need for more costly support.

**Please support funding in the 2025 Minnesota legislative session of a study of this program's effectiveness.**
