

SENIORS need food

Group meals, made available through state and federal funding, are lifesavers for older adults.

Providers project that they will be able to serve 487,000 fewer meals in 2025 than in 2024.

The Minnesota Legislature is making budget decisions for 2026 and 2027 right now.

Make your voice heard about how important group meals are to you. Call or write your state House and Senate members today and ask them to fund senior meals.
